

CERTIFICATE

for the reduction of CO₂ emissions
in express logistics

Alloga AG has considerably reduced its transport emissions through the clever combination of ecological means of transport.

Total emissions saved in 2018 are:

18 909 kg CO₂

This represents a saving of 7 564 liter of petroleum.

Alloga AG supports the goal of reducing greenhouse gas emissions worldwide and is making a valuable contribution to the protection of the environment.

Christoph Masoner
Managing Director
swissconnect ag

Mathias Bürgi
CEO
Swiss Climate AG

The calculation of the CO₂ emissions is
in line with DIN EN 16258.

Lucerne, 12.09.2019

This certificate has been presented by swissconnect ag,
the fastest and most sustainable courier in Switzerland -
since 1999.
